

Meet Karabo Ken

(ka-rob-o)

Birthdate:

August 24, 2021

Newest Kids at The Pines

We recently took in 3 of the 5 children pictured to join our family. The two older boys are living with family in the township where they are attending school.

Karabo is the youngest of the siblings in the family. The children came to us through the government agency, Social Development where most of our children come from. He came into care on August 20, 2022.

His name means "Answer." he came to The Pines along with his siblings due to the mothers whereabouts being unknown and no knowledge of his father, in fact all 5 children have different fathers. The mother just up and left one day handing over the monthly grant money to the oldest child and has not been seen since. Karabo is a one year old boy. His condition when arriving at The Pines was dire. He was malnourished and very tiny for his age. He is a happy boy and seems to be adjusting well. All of the children have faced some very difficult times in their short lives and it's our prayer that we can make a difference in their lives during their time at The Pines.

We are blessed to be able to meet the physical needs of the children but it is also our desire to meet the spiritual needs and we pray that one day this precious boy would come to know Christ as his personal Lord and Savior.

We are grateful that God has given us the opportunity to minister in this precious baby's life. Often times when children come into care the adjustment period is difficult. Please pray with us that God will use The Pines to one day bring Karabo to a saving knowledge.
